# 360 GRADI

## Rivestimenti (ante e fianchi)

Claddings (doors and sides)  
Revêtements (portes et joues)  
Revestimientos (puertas y costados)

VETRO LUCIDO SP.4 mm / VETRO ACIDATO SP.4 mm  
GLOSSY GLASS th. 4 mm / ACIDATED GLASS th. 4 mm  
VERRE BRILLANT ép. 4 mm / VERRE DEPOLI ép. 4 mm  
CRISTAL BRILLO ESP.4 mm / CRISTAL ACIDADO ESP.4 mm

**N.B.:** Colore scocca e gola consigliato uguale al rivestimento in vetro. Essendo materiali diversi è possibile una diversità di tono. Inoltre non è possibile avere la stessa tonalità di colore fra eventuale piano in vetro ed il rivestimento in vetro. Tale difformità è dovuta alla differenza di spessore fra il vetro del piano (sp. 10 mm) ed il vetro del rivestimento (sp. 4 mm).

NOTE: Recommended carcase and channel finishes to match glass claddings. Being different materials, there might be some discrepancy in the shades. Moreover, it is also impossible to provide exact the same shade for glass tops and glass fronts. This is due to their different thickness: 10mm for glass tops and 4mm for glass fronts

N.B.: Coloris caisson et gorge conseillé pareil au revêtement en verre. S'agissant de matériaux différents, il est possible d'avoir une différence de tons. Il n'est pas possible d'avoir la même ton de coloris entre le plan en verre et le revêtement en verre. Cette diversité est due à la différence d'épaisseur entre le verre du plan (ép. 10 mm) et le verre du revêtement (ép. 4 mm).

N.B.: el color de bastidor y gola se aconsejan sean como el frente en cristal. Siendo materiales diferentes pueden tener tonalidades diferentes. No es posible obtener la misma tonalidad de color para la encimera de cristal y el revestimiento de cristal. Esta divergencia se debe a la diferencia de espesor entre el cristal de la encimera (esp. 10 mm) y el cristal del revestimiento (esp. 4 mm).

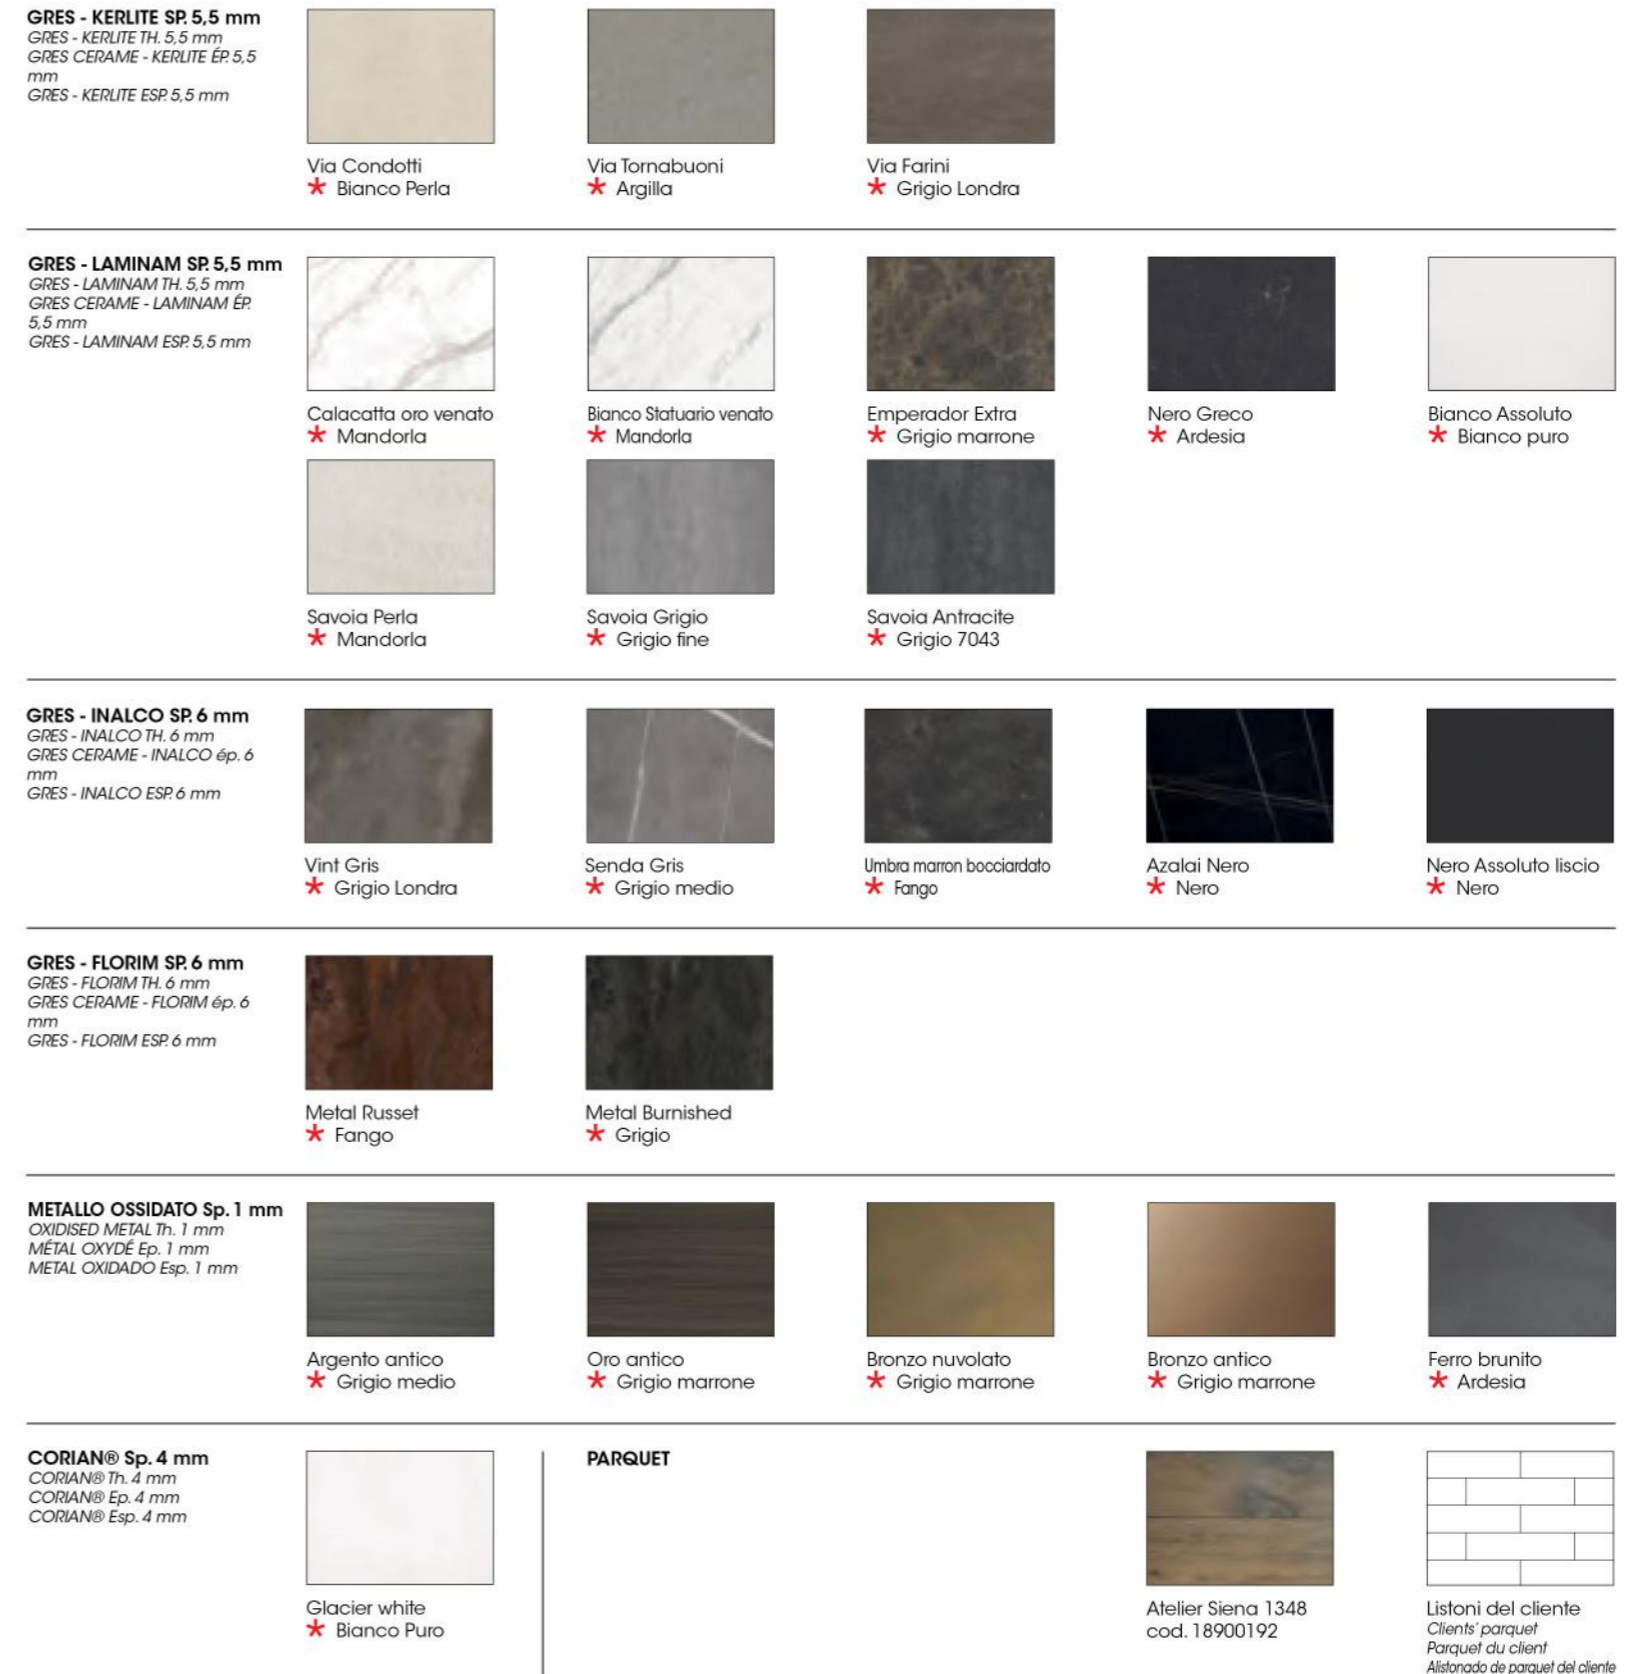

**N.B.:** Attenzione colori indicativi, consultare mazzetta campioni finiture.  
NOTE: colours are indicative, please refer to sample finishes.  
Attention: Les couleurs sont indicatives, consulter les échantillons des finitions.  
N.B.: Los colores estan indicativos, consultar las muestras.

## Rivestimenti (ante e fianchi)

Claddings (doors and sides)  
Revêtements (portes et joues)  
Revestimientos (puertas y costados)

★ COLORE SCOCCA E GOLA: Abbinamento consigliato fra il rivestimento del mobile ed i colori della scocca e della gola  
CARCASE AND CHANNEL FINISH: recommended combination between cladding, carcase and channel  
COULEUR CAISSON ET GORGE: Assortiment conseillé entre le revêtement du meuble et les couleurs du caisson et de la gorge  
COLOR BASTIDOR Y GOLA: Combinación aconsejada entre el revestimiento del mueble y los colores del bastidor y la gola
